VI. NEW BUSINESS/FROM THE OFFICE/FROM LAST MEETING:

J 111 Discussion: Should they be sport boats?

The J 111 boat was discussed and the committee decided that the J 111 sails more like a displacement boats than like an actual sport boats like a Melges 32s. They have a D/WL ratio greater than the current limit for sportboats and are longer than the current limits for sportboats. The committee acknowledged that they are on the edge of the definition for a Sport Boat, but they fall on the displacement boat side of the definition and should remain there.
